
Message from the President

As President and CEO of Texas A&M University-Corpus Christi, I want prospective and current graduate students to know how enthusiastic I am about our excellent graduate programs. We have over 1,750 students seeking advanced degrees in education, business, arts, humanities, sciences, nursing and health sciences. Our many fine offerings at the master's degree level are augmented by doctoral programs in diverse areas, from marine biology and coastal and marine system science to educational leadership, curriculum and instruction, and counselor education.

A&M-Corpus Christi has experienced tremendous growth over the past decade in enrollment and program offerings. I am committed to continuing, indeed, accelerating that growth. I am also committed to promoting access to higher education for all students because the future of our community, region and beyond depends on the education of its citizens.

With the diversity of graduate programs we offer, I am confident you will find a field of study that suits your interests and goals for your future. Each student brings special talents and each contributes to the overall academic success of this dynamic university. My hope is that you will bring your own special talents and be part of the success story of A&M-Corpus Christi.

Good luck in your educational endeavors and may you achieve your dreams at A&M-Corpus Christi.

Flavius C. Killebrew
President/CEO
