This course addresses the principles and practice of sports conditioning from a coaching perspective. Topics will include guidelines for instructing safe, effective, and purposeful exercises, as well as the principles and practices of sports conditioning for women. The course also covers such topics as: history and philosophy of outdoor adventure activities and basic outdoor skills. In addition to skill acquisition and assessment, this course covers such topics as: history and philosophy of outdoor adventure activities and basic outdoor skills. Lab activities will complement lecture materials from KINE 3312. KINE 3112 must be taken concurrently with KINE 3312.

KINE 3301 Outdoor Adventure Programs
3 Semester Credit Hours (3 Lecture Hours)
An introduction to a variety of outdoor adventure activities and basic outdoor skills. In addition to skill acquisition and assessment, this course covers such topics as: history and philosophy of outdoor adventure activities and basic outdoor skills. Lab activities will complement lecture materials from KINE 3312. KINE 3112 must be taken concurrently with KINE 3312.

KINE 3312 Physiology of Exercise
3 Semester Credit Hours (3 Lecture Hours)
This course is an introduction to the fundamental principles of human physiology and their application to kinesiology. This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercises, as well as the principles and practices of sports conditioning for women. Lab activities will complement lecture materials from KINE 3312. KINE 3112 must be taken concurrently with KINE 3312.

KINE 3313 Foundations of Kinesiology
3 Semester Credit Hours (3 Lecture Hours)
An overview of the field of physical education which includes the history, philosophy, principles, current concepts of physical education and career options. For kinesiology majors this course must be taken prior to any senior level (4000) kinesiology courses.

TCCNS: PHED 1301

KINE 3317 Re-inventing Games
3 Semester Credit Hours (3 Lecture Hours)
This course is designed to introduce a framework for the development of games, sports, and activities through an inclusive and developmentally appropriate process of change, challenge, and choice. A wide array of sports, sports-related games and activities are introduced, deconstructed for their current exclusivity and then reconstructed through a framework which seeks to change the existing exclusivity of the rules, to challenge participating students of all cognitive and physical abilities, and then build in a choice component into the activity. This course is recommended prior to enrolling in KINE 3339 and KINE 3341.

KINE 3325 Physiological Aspects of Kinesiology
3 Semester Credit Hours (3 Lecture Hours)
An introduction to the fundamental principles of human physiology and their application to kinesiology.
KINE 3318  Prevention and Care of Athletic Injuries
3 Semester Credit Hours (3 Lecture Hours)
Provides the general knowledge and general application of theory, principles, and skills used in the prevention, care, and rehabilitation of athletic injuries.

KINE 3320  Introduction to Therapeutic Interventions
3 Semester Credit Hours (3 Lecture Hours)
Provides the student with the general knowledge of current theory and application of various therapeutic interventions used in the treatment of musculoskeletal injuries, including thermal therapy, cryotherapy, manual therapy, and therapeutic exercises.
Prerequisite: KINE 3318.

KINE 3337  Sport and Exercise Psychology
3 Semester Credit Hours (3 Lecture Hours)
This course provides general knowledge of the psychological factors that are associated with participation and performance in sport, exercise, and other types of physical activity with emphasis on motivational techniques, personality dynamics, and mental health serving as focal points.

KINE 3338  Motor Development/Motor Learning
3 Semester Credit Hours (3 Lecture Hours)
A study of the fundamental principles related to human motor development and the scientific principles related to motor learning.

KINE 3339  Elementary Physical Education Programs
3 Semester Credit Hours (3 Lecture Hours)
The application of the fundamental principles related to human motor development, physical fitness, locomotor skills, non-locomotor skills, manipulative skills, and rhythmical activities with children at the elementary school level. Recommended
Prerequisite: KINE 2317 and 3338.

KINE 3341  Secondary Physical Education Programs
3 Semester Credit Hours (3 Lecture Hours)
The application of the fundamental principles related to human motor development, physical fitness, sports related activities and dance with children at the secondary school level. Recommended
Prerequisite: KINE 3338 and 3339.

KINE 4127  Biomechanics Lab
1 Semester Credit Hour (1 Lab Hour)
The required laboratory course with KINE 4327. The demonstration and application of mechanical factors and principles affecting human motion. Qualitative and quantitative analysis of human motion with emphasis on sport and fitness activities. KINE 4127 must be taken concurrently with KINE 4327.
Prerequisite: KINE 4327*.
* May be taken concurrently.

KINE 4311  Measurement and Evaluation
3 Semester Credit Hours (3 Lecture Hours)
Use and function of the various tests used in kinesiology together with the purpose, scope and techniques of test construction. Development of statistical techniques necessary for manipulation and interpretation of physical performance data.
Prerequisite: KINE 1320 or 2313.

KINE 4325  Kinetic Anatomy
3 Semester Credit Hours (3 Lecture Hours)
An analysis of the skeletal, muscular, and neurological structure and functional aspects of human movement with emphasis on sport and fitness activities.
Prerequisite: KINE 2325 or BIOL 2401 and KINE 1320 or 2313.

KINE 4327  Biomechanics
3 Semester Credit Hours (3 Lecture Hours)
An analysis of the mechanical factors and principles influencing human motion with emphasis on sport and fitness activities. Recommended
Prerequisite: (KINE 2325 or BIOL 2401) and (KINE 1320 or 2313) and KINE 4127*.
* May be taken concurrently.

KINE 4329  Essentials of Strength and Conditioning
3 Semester Credit Hours (3 Lecture Hours)
This course is designed to provide a comprehensive overview of strength and conditioning. Emphasis is placed on the exercise sciences (including anatomy, exercise physiology, and biomechanics) and nutrition, exercise technique, program design, organization and administration, and testing and evaluation. Additionally, this course is designed to prepare students for either the nationally accredited Certified Strength and Conditioning Specialist (CSCS) or the NSCA Certified Personal Trainer (CPT) exams.
Prerequisite: (BIOL 2401, 2402, KINE 4312 and 4327).

KINE 4339  Special Populations in Kinesiology
3 Semester Credit Hours (3 Lecture Hours)
A course designed to direct kinesiology educators toward meeting the program needs of the exceptional individual in physical education or kinesiology professional setting. Practical teaching application with exceptional individuals is stressed.
Prerequisite: KINE 2313.

KINE 4340  Exercise Testing and Prescription
3 Semester Credit Hours (3 Lecture Hours)
This course provides classroom and hands on experience addressing all facets of exercise testing and prescription ranging from health appraisal, physical fitness testing, principles of exercise prescription, clinical exercise physiology, and special populations.

KINE 4390  Seminar in Exercise and Sport
1-3 Semester Credit Hours (1-3 Lecture Hours)
Contemporary issues in Exercise and Sport; topics vary with the individual. May be repeated for credit when topic varies.

KINE 4693  Professional Field Experience I
6 Semester Credit Hours (6 Lecture Hours)
This course is a field-based experience (minimum of 200 hours) to provide the student the opportunity to apply knowledge and theory related to the student’s specialization in kinesiology (e.g. Exercise Science, Pre-Allied Health Professional, Sport Management). Students must enroll in both KINE 4693 and KINE 4694 at the same time. To enroll students must have departmental approval as well as an overall and kinesiology GPA of 2.75. The field experience is for seniors only and they should enroll during their last semester. Students are allowed to enroll in other coursework but not to exceed the 18-hour university limit.

KINE 4694  Professional Field Experience II
6 Semester Credit Hours
This course is in conjunction with Professional Field Experience I. A minimum of 200 hours is required for this portion of the internship for a total of 400 hours. Students must enroll in both KINE 4693 and KINE 4694 at the same time. All of the requisites and limitations of KINE 4693 apply to this course as well.

KINE 4696  Directed Individual Study
1-6 Semester Credit Hours
Investigative study on selected problems by students with particular needs through special permission of the Department Chair and Dean. May be repeated for credit when topic varies.
