

HONORS PROGRAM

Program Description

The Honors Program at Texas A&M University-Corpus Christi offers an enriched plan of study to highly motivated students who have the capacity to excel academically and a strong and abiding determination to reach their greatest intellectual potential. We pride ourselves on being an experience-based program that helps students develop the skills necessary to succeed in the workforce or graduate education, by focusing on three key areas of personal development: undergraduate research, study away, and volunteerism. Students admitted to our selective community of scholars will receive the following direct benefits:

Undergraduate Research/Creative Experience

- Study with outstanding faculty
- Work on original research
- Honors research fellowships

Study Away Experience

- Travel away
- Attend conferences
- Travel to professional events

Service Learning Experience

- Community outreach
- Skills-relevant curriculum
- Course credit for internships

Student Learning Outcomes

Upon completion of the Honors Program, students will be able to:

1. Demonstrate critical thinking and analytical skills, to include: creative thinking, innovation, inquiry and analysis, evaluation, and synthesis of information.
2. Demonstrate communication skills, to include: the effective development and interpretation and expression of ideas through written, oral, and visual communication.

Admission Requirements

Students can apply for admission to the Honors Program by completing the general application for admission to the university (ApplyTexas) and choose if they want to apply to the program. If they select "yes" they will be taken to a secondary application for the Program that can be submitted automatically with their general application. Students will be admitted on a rolling basis to the program as space allows for those meeting the requirements outlined on the Honors Program website (honors.tamucc.edu (<http://honors.tamucc.edu>)). The Director and Program Coordinator will review the application as part of the admissions process prior to making invitations to join the Program. The Program will host open houses for prospective students.

HONR 4102	Project of Excellence Seminar III	1
Elective Honors Courses		
Select 12 hours of Honors electives		12
Total Hours		18

Elective Honors Courses

Students are encouraged to take elective Honors courses that enhance their college experience. Any course offered at TAMU-CC has the potential to be an elective Honors course option. Honors courses may be offered each semester from across the Colleges; some of these courses may be stacked courses in that they may require the Honors student to complete additional readings, assignments, etc. Elective Honors courses will be listed under Honors in SAIL and also denoted as Honors courses by the "H" code assigned to the course section. Standalone Honors courses may also be offered. The Director and Program Coordinator will have discretion over whether transfer courses or other substitutions can meet these requirements.

Students are expected to take the Honors Seminar courses in sequence as they progress through their academic studies. The Director and Program Coordinator will have discretion over whether transfer courses or other substitutions can meet these requirements.

Honors Electives Counting Towards a Major/Minor Course Requirement

Course requirements for a major or minor are determined by the faculty in each corresponding academic discipline, and variations in the major/minor requirements are subject to the approval of the faculty in that area. Therefore, the student should consult the description of the major/minor in the section of the catalog dedicated to that discipline. Questions

about the major/minor course work should be directed to the appropriate advisor within the major/minor discipline.

Major/Minor Courses Counting Towards an Honors Elective Course Requirement

Only 3 hours of major/minor course requirements may be applied as Honors elective credits. However, a student may choose to exclude a class from the major or minor course requirements and use the course exclusively for Honors elective course requirements.
